

# ORTTECH UPTIME PROGRAM

Orttech offers many unique services to help you keep your equipment up and running as much as possible. We know you can't make money unless you are making parts. Our UP TIME Program includes the following components not offered by any other clutch/brake supplier

- Join Orttech's NEW customer press data base so in the future we can quickly ID the Ortlinghaus c/b on your press, to save you time on ordering parts
- Join Orttech's NEW e mail notification system to receive emails on a timed frequency for checking lining wear, saving on wear and tear of c/b
- Take advantage of the Orttech relining program where stocked relined plates are available for quick turnaround, saving you downtime

- Take advantage of Orttech of Orttech's close relationship with rebuilders throughout North America
- Take advantage of Orttech's NEW off-hours customer support program to help you keep your equipment operating on weekends and holidays
- Take advantage of Orttech's vast inventory of complete clutch/brakes and spare parts to keep your presses operating

Take advantage of the Orttech clutch/brake sizing model and staff engineers to select an Ortlinghaus clutch/brake for conversion on one of your older presses within hours of your telephone call reducing the time your machine sits waiting for decisions to be made
